

*Uniting Police Wives Across America. One Team. One Purpose.*

## Fundraising

The fundraiser is responsible to help police families with medical and financial hardships. When a traumatic event occurs in the line of duty, it is necessary to financially support families who have suffered a loss or need to seek medical assistance. Officers have resources available through their departments, but we have found that often times more help is needed to support the payment of medical bills or simply lost wages. The fundraiser will support the group's ability to give gifts and meals to families when necessary. Fundraising opportunities include online fundraisers supported by our non-profit status as well as in person fundraisers out in the community at any businesses or restaurants that would be willing to hold a public fundraiser. ANY and all fundraising opportunities hosted on behalf of a specific family must be cleared with that family and it is imperative that privacy and rights are respected as specified by the family.
